No camera or mic on this one, I see. Good for attending in PJs!

Does the schedule show which classes are webinars and which are interactive? **YES**

Will there be a limit to participants for the webinars? **Generally there is a high limit for webinars.**

Will the MAFA sessions be any different than usual Zoom sessions? **The webinar sessions will be Zoom-based, so controls will be the same.**

Will workshops and lectures be recorded so we can re-watch at our leisure? **Yes, most classes and all lectures will be recorded and available for about two weeks.**

If we purchase a class, can we download it to keep it for reference? **No, we don't have ownership, so can only make videos available for a short period.**

If you have a smartTV, you can also display your class to your TV. **You can hook up your laptop to your tv with an HDMI cable and you would need to change you mode on the tv to see it.**

So is the cost \$25 for registration, and then then classes about \$40 for each 2 hours. Are there any material fees? **Yes, the \$25 Conference Pass covers all the lunchtime and afternoon lectures, Morning and Evening social times, Chair Yoga, and the Vendor Hall. Classes are \$35 for members/\$40 for non-member per 2-hour session, and some classes have more than one part. Materials fees are spelled out in the brochure and on the website.**
